LOCATION OF PROPERTIES

The plan in this work has been to divide the city into three sections as follows:

The North Philadelphia Section containing a list bounded by the North side of Market Street, Schuylkill River, Delaware River and City Line.

The South Philadelphia Section bounded by the South side of Market Street and the Schuylkill and Delaware Rivers.

The West Philadelphia Section containing all realty West of the Schuylkill River to City Line.

Each Street, Avenue, etc., regardless of its importance, is in strict alphabetical order. All numerical streets (avenues, etc.) follow the alphabetical streets in numerical order.

Where a Street is divided North and South or East and West, the South follows North and West follows East, e. g., North Broad—South Broad; East Girard—West Girard. The side of the Street is indicated in bold type following the name of the Street. It is to be noted that certain Streets skip a great many numbers or fail to appear for a certain distance. Streets appear in our records only when properties are assessed thereon.

In indicating Vacant Lots or Plots, the number of feet distant from a given point, usually the Street before, is mentioned. Where that is not possible, the best description consistent with the need of brevity has been given. In every instance possible the location has been described as per the records of the Bureau of Revision of Taxes.

All properties and vacant lots, etc., have been located on the Street (Avenues, etc.) off which they are assessed. If property is not found where sought, reference should be made to the intersecting Street, or the Street directly in the rear.

OWNERSHIP

In case of further doubt, call "Service".

The ownership given is in accordance with the records of Registry Department of the Bureau of Surveys. Where a property is held jointly by a Husband and Wife, by several Heirs or by several persons, we are compelled to list one name only. The fact that it is held jointly is indicated by certain recognized symbols, such as "et al" and "et ux". Only Ownerships of ACTUAL RECORD are listed, no effort being made to go beyond that point.

DATES

All dates show actual time of making the Deed and do not refer to date of recording. For the sake of brevity the day of the month has been omitted, the number of the Month and the Year being given.

SIZE OF LOT

The dimensions of road beds, irregular City plots such as parks, etc., are not given. "Service" will supply exact dimensions of irregular lots or plots on request.

ASSESSMENT

The current year's Assessments are given.

ADDRESS OF OWNER

The "Owner's address" given is the best obtainable. In instances where the address of the Owner was not ascertained, the owner's Attorney, a relative or his Agent is given. Where our dispatchers brought in several addresses for apparently the same individual, no attempt has been made to reconcile the information, unless there was no question of identity. Some addresses not yet obtainable are indicated "Call Service."

TELEPHONE NUMBERS

Telephone number given is the number on the property without reference to the name of occupant or name of the telephone subscriber.

SHERIFF'S SALE LIST
